Burnie Communities for Children Forum and Workshops

March – April 2022

Your community needs you now more than ever

Are you open to becoming a positive influence on the young people you know? Do you interact in any capacity with people in the Burnie regional area, aged 0-12 years? You may be a parent, an uncle, a librarian, or retailer, a coach, a babysitter, Outside School Hours Carer, or counsellor. If you are a teacher, a doctor, a social worker or part of a faith community, a volunteer, a Rotarian, a nurse, a corrections officer, a sports club president or receptionist.

Do you have any concerns about the wellbeing of young people in the Burnie region? You may simply know someone who has children, or you are tuned in to the global concerns about the future.

TANA's Burnie Community Forum and Workshops, March – April 2022

TANA was founded in Burnie in 2018 and is now a well-established grassroots health promotion charity leading the upstream prevention of complex trauma. To the best of our knowledge, we are the only one of its kind in the world.

TANA members have been working diligently in the background for four years, intent on coming up with a viable solution that can shift the effects of the complex social problems we all face.

The science has been well-established for decades and new technologies keep adding strength to the findings - that experiences affect people. Unresolved toxic stress results in long-term health and learning difficulties, especially when experienced at sensitive developmental stages. TANA explains the science, in simple terms, that health, learning and life outcomes can be predicted. And what is predictable is preventable.

TANA is leading the upstream prevention of complex trauma from the grassroots. Root causes need grassroots solutions. Be part of the solution.

Our TANA Workshop Package will deepen your understanding and support you in putting the information to work in a safe and connected environment.

This package offers you 3 sessions for learning and integration:

1. Burnie Communities for Children Forum provides the foundational information and key strategies you can start using right away.
2. Workshop 1 provides a space to unpack how the content of the forum relates to your context and decide on action steps you can take to use this information in the process of bringing about positive change in your life, family, workplace.
3. Workshop 2 provides an opportunity to report back on how you went with implementing your strategy over a two-week time period. Bring your insights and questions and experience the rich unfolding of deepened understanding that comes from sharing TANA talk, real talk.
